Mr. Michael Hom, Environmental Engineer
Clean Water Enforcement Branch
Water Protection Division
U.S. Environmental Protection Agency, Region 4
61 Forsyth Street, SW
Atlanta, GA 30303-8960

Re: Information Request – Section 308 of the Clean Water Act
Dalton Utilities Land Application System (LAS) Permit No. GA02-056

Dear Mr. Hom,

Dalton Utilities is in receipt of your email correspondence dated June 17, 2009. Thank you for promptly providing Dalton Utilities with the reduced list of analytes as agreed upon in the June 16, 2009, meeting between representatives of the United States Environmental Protection Agency (EPA) and Dalton Utilities.

Per our communication with the contract laboratory, the cost of the analyses has been reduced from over \$120,000 to approximately \$28,200 due to the reduced scope of analyses. The analyses time frame has also been reduced and we will provide results to you no later than July 20, 2009, which will meet the original 60 day time frame of the Section 308 request.

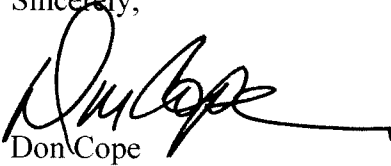

If you have any questions, please contact me at 706-529-1091 or dcope@dutil.com.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false
